Soudal RTV 50

Soudal RTV 50 is a one-part **neutral cure**, low modulus silicone sealant. With its movement capabilities of +50% /-50% (ASTM C920), it offers excellent performance in building joints that have extreme movement. RTV 50 also offers outstanding adherence to glass, vinyl, metals and many types of wood. Available in 10.1 fl.oz. cartridges.

Soudal RTV GP

Soudal RTV GP (General Purpose) is a one-part **acetoxycure** silicone sealant. Its anti-mildew characteristics makes it the perfect silicone for sealing purposes in bathrooms & kitchens. RTV GP also offers excellent adherence to metal, aluminum, glass and many types of wood. Available in 10.1 fl.oz. cartridges.
